

PSCR Efficiency Check - Touzil System

by [Nick Toussaint](#) and [Leonardo Zillo Monte Xillo](#)

Touzil-K factor isn't the same K factor used in other systems. It's intended to be used with Touzil System only. Don't use Touzil-K factor with other systems, this would lead to incorrect and unpredictable results. This is an experimental software. Don't use it in real dives

[PSCR Oxygen Drop - Touzil System](#)

[PSCR K-Check - Touzil System](#)

10 Rebreather Dump Ratio (%). Example: 10
 15.41 OC Consumption l/min. Example: 20
 2.12 Rebreather Consumption l/min. Example: 2.5

Calc

Rebreather Dump Ratio	OC Consumption	Rebreather Consumption	Consumption Rate: 1/x	Efficiency %
10	15.41	2.12	7.27	95.83
